

## Lesson Plans

### Lesson idea #1:

Have your students retell or write down the story of Anna and Troll in their own words. Younger children can draw a picture of their favorite character or a portrait of them all. Older students could act out the stories themselves, make their own video of the story or even a puppet show.

### Lesson Idea #2:

There are many, many books of Folk Tales available in the local library. There are also many collections of Norwegian folk tales and tales from the other Scandinavian countries. Have student find another story and retell it for the class in person or recording it on their phone.

### Lesson idea #3:

The Disney movies "Frozen" and "Frozen 2" are based on the folk tale "The Snow Queen." Read or tell that story to your students and have them talk or write about how the original story is the same or different from the movie version. Have them discuss how they might have made the movie differently if they had been the writer or the director.
